

**Burley****Symbol 4****Burley**

Symbol 4 is a burley variety imported from western Ukraine (Transcarpathia). Leaves are packed densely on the stem. Symbol 4 is a heavy producer with very good yields. The light green oval shaped leaves become yellow at the tips and edges which spreads across the leaf when ripe. The leaves begin to ripen before the plant reaches bloom, making it a reasonable choice for short season areas.

Symbol 4 air cures to a bright yellow / gold color with an excellent burning quality. It has a stronger richer taste than bright leaf, having a hint of Dutch tobacco flavor and aroma to the smoke, and is a good choice for cigarette or pipe blends.

Days to Maturity: 50-84

Spacing: 24-36 inches

Plant Height: 63-72 inches

Leaf Length: 16 inches

Leaf Width: 9 inches

Leaf Count: 24-28

Pedigree (Sobolchsky 193 x Jubilee 8 x Virginia American)

Comments:

Harvesting of leaves should be started when the leaf turns completely yellow with the appearance of light spots, which is typical for the variety.

Yield:

Nicotine:
